

## 21PV8144

# Load break switch body for photovoltaic applications SIRCO MC PV 600VDC 8P 45A

#### Strong points

- Compact
- High breaking capacity up to 1000 VDC
- Safety
- Easy mounting

#### General characteristics

- Range from 25A to 40A.
- Up to 1000 VDC.
- Din-rail mounting or door mounted.

#### Compliance with standards

- IEC 60947-3
- UL508i

#### Link to the reference

https://apac.socomec.com/en/reference/ 21PV8144 SIRCO MC PV are DC load break switches. They make and break under load conditions and provide optimum safety isolation for any PV circuit.

#### Classification

Length of the packing unit

| Classification                                |  |
|---|--|
| UNSPSC  | 39122233                                 |
| ETIM Class                                    | EC000216                                 |
| IGCC  | 5290                                     |
| Commerce                                      |  |
| Effective date                                | 2013-11-26                               |
| Country of origin                             | PL                                       |
| Length of the product unit                    | 0.078                                    |
| Width of the product unit                     | 0.052                                    |
| Depth of the product unit                     | 0.0675                                   |
| Weight  | 0.47                                     |
| ETIM - Electrical characteristics             |  |
| Max. rated operation voltage Ue AC [V]        | 1000                                     |
| Rated operating voltage [V]                   | 600600                                   |
